Letters to the Editor

Signed Letters to the Editor are always welcome. Please send, fax or email letters to Barb Herzog.

Minnesota Public Radio encourages you to enter your classical music performance events in the MPR online calendar. In the box in the upper left corner of the MPR main page <<http://www.mpr.org>>, click on 'Events Calendar'...then follow the instructions on the calendar page to 'submit a new event'.

This information will reach an audience different from the online TCAGO or PIPE-DREAMS calendars. It's free, and it's another way to let people know about your classical music concerts.

By all means, continue to send information directly to Michael Barone too.

FREE ONLINE PROMOTION!

Gain potential additional promotional exposure for your performance event (concerts only, not services) by listing it on the Minnesota Public Radio Online Event's calendar (separate from the PIPEDREAMS calendar!). Go to <www.mpr.org>, click on 'classical' in the upper green box, scroll down and click on 'regional events' in the EVENTS panel, then click on 'submit an event' and follow the prompts. It's free, and is widely read (particularly by MPR's on-air hosts).

Daniel O'Connor, First Prize Winner

By Kathrine Handford

Daniel O'Connor, a freshman at Lawrence University in Appleton, Wisconsin received first prize in the Young Organists Competition held in Albuquerque, New Mexico during the Region VII AGO Convention on June 27th. At Lawrence, O'Connor is a student of TCAGO member Kathrine Handford. A native of Dallas, Texas, O'Connor is majoring in organ performance and economics. For the competition, he performed the *Prelude and Fugue in a minor*, BWV 543 of J. S. Bach, Vierne's *Clair de Lune* Op 53, from *Pièces de Fantaisie* and *Blithely Breezing Along* from *Baronian Suite* by Stephen Paulus. As a "Rising Star" O'Connor will perform a concert along with the other regional competition winners next summer at the national convention in Washington D.C. 🎵

Huge Undertaking – Interested in Assisting?

I have a project in mind that was inspired by the some 1100 programs of organ recitals collected by historian Robert Pope. He willed the collection to TCAGO. Several years ago I entered the main information into a database. Because of limitations of space, I was not able to enter the titles of the compositions performed. I found this information fascinating. To compare a concert performed in 1943 to contemporary concerts I thought was very interesting, especially when they were performed by the same organist. I have a suspicion that Mr. Pope attended every recital that Dr. Edward Berryman ever performed, plus hundreds of other performers. I therefore feel duty bound to record this information before it is lost to the future organ community.

I would create an HTML website as I have done with descriptions of organs in our area. I will have much more space to include information. I hope to scan entire programs for each page.

This thinking brought me to the idea of continuing Mr. Pope's collection with programs of today's recitals. I would need your help. If you sponsor or play a recital, send the program

(Project continued on page 4)

Dean's Column

Welcome Back...

Summer was too short, but I hope you have found time for rest and restoration. I attended two AGO Regional Conventions this summer, the first in Wichita and the second in Phoenix. Both were very good; each felt different. There was interesting programming, some very good playing and singing, wonderful people, great instruments and several surprising, beautiful new churches. It made me proud to be an active AGO member.

The Oral History Committee of our TCAGO has met several times over the summer and we are asking for your help: 1. We are asking you to submit names of local members who you would suggest we interview; 2. We are asking for volunteers to help with the transcribing; and 3. We are asking for donations to help defray the cost of this project. We are hoping to have the interviewing completed in the next few months and have the final document available as part of our TCAGO's 100th Anniversary, November 23, 2010.

I am very proud to announce that the TCAGO has received an anonymous gift of \$5,000.00. It was given in honor of Dr. Paul Manz to the Chapel Organ Fund at his residence, Beck-
etwood. More information will follow.

I want to remind you of our fall Opening Event scheduled at Nativity of Our Lord Catholic Church in St. Paul on Sunday, September 27. It will follow the first of five organ recitals (two each week) presenting all ten of the Widor organ symphonies. The recital is at 2:00 pm. We will have a Social Hour with hors d'oeuvres, Presentation of Certificates, and Installation of Officers after the recital.

The Program Committee has been very busy planning an outstanding year of monthly events for you. Please try to attend as many as you can. Bring a friend. Please email me with thoughts, ideas, comments and to volunteer.

With good wishes for a successful season ahead,

Steve Gentile, Dean

Church Listings

All churches advertising positions with the TCAGO are asked to complete a questionnaire on their general policies and requirements for a music position. Churches that have returned their completed form are shown with an asterisk in front of their name. Members wishing more information on specific churches or positions relating to the questionnaire may call Robert Anderson at 612- 377-4450.

There are no church position listings this month. Churches that are currently advertising positions on the TCAGO website did not choose to list in *Pipenotes* in September because they were too far along in the search process. 🎵

Enjoy the Widor Marathon!

By Steve Rosenberg

Nativity of Our Lord Catholic Church in St. Paul is hosting a Widor Marathon encompassing the complete organ symphonies of Charles Marie Widor (1844-1937) performed on the 2007 Sitzmann organ built by Casavant Frères, Opus 3855. The series of five recitals (Sundays at 2 pm on September 27, October 4, 11, 18, & 25) will feature the talents of ten Twin Cities organists and is co-sponsored by the Twin Cities Chapter of the American Guild of Organists. This is a rare opportunity to hear live performances of the complete cycle of these influential masterpieces of the French romantic organ school. The Widor "Toccata" (the closing movement of the 5th symphony) is one of the best-known organ pieces of all time.

Performers in the Widor Marathon are Jeffrey Patry (Symphony I: on Oct.11), Helen Jensen (II: Sep. 27), Catherine Rodland (III: Oct. 4), Steve Gentile (IV: Oct. 25), James Frazier (V: Oct. 4), James Biery (VI: Oct. 11), Stephen Self (VII: Sep. 27), Charles Echols (VIII: Oct. 18), Diana Lee Lucker (IX: Oct. 18), and Allan Mahnke (X: Oct. 25).

The Nativity Casavant (3 manuals, 40 stops, 52 ranks) was featured in a recital by Jeremy Filsell during the 2008 AGO National convention.

Dr. Charles Echols was the originator of the Widor project. Nativity organist Steve Rosenberg and Music Director/Organist Patrick Henning have assisted in planning and organizing the series. 🎵

Anyone may list a position opening by writing or calling Robert Anderson, 2024 Kenwood Parkway, Minneapolis, MN 55405-2303, **612-377-4450**. Positions are listed in two consecutive issues of PIPENOTES. If the position is still open, the church is asked to relist the opening. A fee of \$50 is requested (with the ad running 2 months, and an additional \$15 for each month following) for this service. Checks are to be made **payable to: TCAGO (Twin Cities Chapter-American Guild of Organists)**. Calls will be returned by the next business day.

For those who are looking for positions, there are often several weeks between the time a position is open and the date it is published in PIPENOTES. From time to time a congregation is in immediate need. Those of you who would like to have your name suggested to a congregation can leave your name and number with Robert Anderson. His function will be to give a congregation a list of available candidates.

2009 ORGAN SYMPOSIUM CENTRAL LUTHERAN CHURCH September 18 and 19, 2009

By Mark Sedio

Dr. Faythe Freese is the featured artist for this year's Central Lutheran Organ Symposium to take place September 18 and 19. The two-day event begins with an **organ recital on Friday, September 18 at 7:30 pm.** The program will include works by Leo Sowerby, Charles Tournemire, Herbert Howells, Pamela Decker, Jean Langlais and Max Reger. The church's 107-rank, four-manual Casavant Frères instrument, Opus 2722 (1963) was fully restored in 2006-2007.

The symposium continues on **Saturday morning, September 19 with a two-part workshop** from 9:00 to 11:30 am. During the first section, Dr. Freese will perform, then speak about "To Call My True Love to My Dance," a piece she commissioned from composer Naji Hakim. Also included will be comments, photos and sound clips from her recording sessions of the piece at Sainte-Trinité in Paris. The final hour of the morning will include a Master Class on selected pieces. A time of coffee, treats and fellowship for the morning's attendees will begin at 8:30 am in the church's South Commons (main south entry).

There is no cost for either event – however a free-will offering will be received at Friday's recital. Parking for both events (in Central's parking lot to the south of the building) will be validated.

Faythe Freese is Associate Professor of Music at the University of Alabama School of Music in Tuscaloosa. She holds degrees in organ performance and church music from Indiana University. Her teachers have included Marilyn Keiser, Robert Rayfield, William Eifrig and Phillip Gehring. As a Fulbright scholar and an Indiana University/Kiel Ausstusch Programme participant, she studied the works of Jean Langlais with the composer in France as well as the works of Max Reger with Heinz Wunderlich in Germany.

Faythe Freese

With performances described as "powerful ...masterful... impressive ... brilliant," Dr. Freese is in demand as a recitalist throughout the United States, Germany, Denmark, South Korea and Singapore. In addition to faculty positions at Indiana University, Concordia University in Austin, University of North Dakota-Williston, and Andrew College, she has also held church music and symphony orchestra positions in Georgia, Illinois, Indiana, North Dakota, Texas and Ohio.

Her recordings include:

- *Faythe Freese à l'Orgue de l'Eglise de la Sainte Trinité*, JAV173 (February 2009 release)
- *Roaring Ranks with Faythe Freese* Arkay AR6176
- *Sowerby at Trinity* Albany Records Troy 368
- *Faythe Freese in Concert* Arkay AR6174

Hendrickson Pipe Organ in Sartell Church

By Charles Hendrickson

The Hendrickson Organ Company of St. Peter, Minnesota has completed the installation of a three-manual 35-rank pipe organ in the new Celebration Lutheran Church of Sartell, Minnesota. The organ is an expansion of Aeolian-Skinner Opus 877 (just 15 opus numbers earlier than the Northrup Auditorium organ pus 892), from Principia College in Elsah, Illinois. Mr. Sam Donelson was the original donor of the organ built by Hendrickson in 1996 for his church in Fayetteville, Arkansas. The church closed and the organ was then purchased by the Sartell church. Charles Hendrickson was the organ designer and his son, Eric, the installation foreman.

Dr. Kim Kasling of Cold Spring was the consultant for the project and performed at the dedicatory recital in April 2009. Jennifer Ambrosino is the organist at

the church where Rev. Tom Wright is the head pastor. Maureen Putnam served as the original musician for the organ project.

A feature of the organ is the large and impressive walnut "amphitheatre" console detached from the front of the organ. Miller Architects of St. Cloud designed the new church and Bruce Olson was the acoustical consultant. The present sanctuary will become a future assembly room when the final sanctuary is eventually built and the organ moved to its permanent location. 🎵

The VocalEssence Chorus & Ensemble Singers open the 2009-2010 season with "Of Love & Angels" featuring the Midwest premiere of *Evensong: Of Love and Angels*, written by Minnesota's own Pulitzer Prize-winning composer Dominick Argento. The program also commemorates the 250th Anniversary of **George Frideric Handel's** death with *Zadok the Priest*, performed at every British coronation since

1727, and the lyrical *Laudate Pueri (Psalm 113)* for chorus and chamber orchestra, showcasing soprano **Maria Jette**.

Central Lutheran Church in Minneapolis hosts this season's opening performance on Friday, **September 25, 2009 at 8 pm**. Composer Dominick Argento will join Minnesota Public Radio's John Birge for a Concert Conversation at 7 pm.

After the passing of his wife, **Dominick Argento** believed that he would never compose music again. But with the encouragement of friends, he accepted a commission from the Cathedral Choral Society in Washington, D.C., composing *Evensong: Of Love and Angels* to honor the memory of his wife, accomplished soprano Carolyn Bailey. In March 2008, this intensely personal work for soprano, boy soprano, reader, and chorus premiered to critical acclaim at the Washington National Cathedral. The *Washington Post* praised the "warmth and melodic accessibility" of the piece and concluded "It's hard to imagine a lovelier or more heartfelt memorial."

A former teacher of VocalEssence Founder and Artistic Director Philip Brunelle, Dominick Argento received the first-ever commission by VocalEssence in 1973, composing *Jonah and the Whale*. Argento has since written four additional commissions for VocalEssence: *A Thanksgiving to God, for His House* (1979), *Spirituals and Swedish Chorales* (1994), *Sanctus* (new orchestration in 2002),

and *The Choirmaster's Burial* (2009) composed for over 500 voices to conclude the 40th Anniversary Season.

One of the most significant forces in Minnesota's classical music community for the past 50 years, Dominick Argento joined the faculty at the University of Minnesota in 1958, where he taught until 1997 and now holds the rank of professor emeritus. Among Argento's most lauded works are his song cycle *From the Diary of Virginia Woolf*, which earned him the 1975 Pulitzer Prize, and his 1984 opera *Casanova's Homecoming*, described by *Opera News* as "a masterpiece." Born in York, Pennsylvania in 1927, Argento studied at the Peabody Conservatory, earned his Ph.D. from the Eastman School of Music, and received Fulbright and Guggenheim Fellowships. Argento is the Minnesota Orchestra's composer laureate, the first composer to hold such a position with an American orchestra. ♪

A Future TCAGO Member!

By Jim Frazier

At age seven, Kent L'Oiseaux-Purcell will be entering second grade this fall. He and his twin brother Kai, and their parents Kirsten and Frank L'Oiseaux-Purcell, are members of St. John the Evangelist Episcopal Church in Saint

Paul, where Jim Frazier is the Organist and Director of Music. Kent has a keen fondness for the pipe organ and has cleverly constructed his own instrument in his bedroom using two electronic keyboards and some blocks. He is interested not only in the sounds of the organ but in how those sounds are produced, and when St. John's E.M. Skinner organ was overhauled last summer by the Schantz Organ Company, he had the opportunity to inspect parts of the instrument that are not otherwise visible. Kent also has a fondness for the music of J.S. Bach. He has 150 CDs containing the music of the great composer—some on the organ and some by orchestras—and listens to them frequently. When he discovers a piece he particularly likes, he invites his parents to go downstairs with him to listen to it. This is how many organists are born, and we all have our stories to tell, but Kent is starting out at a remarkably early age. Right on, Kent! 🎹

The following mission statement has been developed:

"In conjunction with its 100th Anniversary, the Twin Cities Chapter of The American Guild of Organists will undertake an Oral History Project. It will capture the unwritten history of a number of people who are members of TCAGO, including those who have been officers of the board, organizers of conventions, and others who have had an influence on or who have been influenced by the TCAGO.

Five trained AGO members will conduct interviews with approximately 15 selected persons. May 2010 is the goal for completion of this project.

Products of the project will include a sound recording and edited transcript of each interview. All of the project tapes and transcripts will become part of the TCAGO Archives. Portions of the transcripts may serve as source material for articles in *Pipenotes* or other kinds of publications."

ORGAN MASTERCLASS with Wilma Jensen

Wilma Jensen will present a Masterclass for all organists on **Saturday, September 26 from 9 am until Noon** in the organ gallery of the Cathedral of Saint Paul.

Attendance is free to all. Performers must pre-register, as the number of performers is limited. Sponsored by the Cathedral Music Series, participants will perform a piece of their choice for Dr. Jensen; she will offer ideas for technique and interpretation.

Dr. Jensen is particularly interested in encouraging less-experienced players to be heard. "Any prelude of any level deserves to be beautiful," said Dr. Jensen. For this reason, teachers are encouraged to invite students at all levels to perform.

Participants will be able to explore the sounds of the Cathedral's two pipe organs. The organ behind the altar was built by Ernest Skinner in 1927; the organ in the loft was added by Aeolian-Skinner in 1963.

Wilma Jensen is a graduate of Eastman School of Music where she was a pupil of Catharine Crozier and Harold Gleason. As professor of Organ at Indiana University, Oklahoma City University, Scarritt Graduate School, and the Blair School of Music at Vanderbilt, she has shaped a generation of outstanding organists, teachers and church musicians. Her own extensive concert career has taken her throughout the U.S. and around the world, including tours of Norway, Sweden, Denmark, West Germany, France, Poland and England. She has made critically acclaimed recordings, both as an organ soloist and in the role of conductor.

This Masterclass is **free**. To pre-register to perform and schedule practice time, contact: Lawrence Lawyer, llawyer@cathedralsp.org. The Cathedral of Saint Paul is located at 229 Selby Ave., St. Paul. There is free parking in the Selby Ave. lot. www.cathedralsp.org 🎵

Insuring Against Disaster

By David Engen

Insurance is one of those unpleasant topics we like to avoid, like death and taxes. Most of us involved in music honestly don't know that much about it. Unfortunately, churches do burn down and organs are lost. It's up to the organist to make sure the instrument is adequately insured. Does your church carry enough insurance to replace the organ should the unthinkable happen? As organ replacement costs rise over time, insurance coverage must be updated. Your organ would cost more to build today than ten or twenty years ago. When was the insurance last updated? If it was last revised ten or twenty years ago, you might not be able to replace the organ.

Courtesy: Kurt Jull

In the summer of 1970 the pedal chests of a modest early twentieth-century organ had been replaced. In the early 1950's the whole organ had been moved from the front of the church to the balcony, with new manual windchests installed at the time. The old pedal chests were retained, but twenty years later they were failing. The very night the work was completed, the church tower was struck by lightning and the church roof and all interior furnishings burned. All that was left of the organ was a few windchests with only the pipe

feet left, the pipes themselves having melted down into the feet. The church did not have enough insurance to replace the organ, so they bought an electronic substitute.

Some years later another church with a relatively recent 3-manual pipe organ experienced a fire that started overnight in the education wing and spread into the walls of the sanctuary. When the fire finally burst out into the room, it essentially exploded the building and took the organ with it. Again there was insufficient insurance and the organ could not be replaced.

I know of a country church that for years had boasted a little electronic organ and finally saved enough money for a small but delightful unit pipe organ of just six ranks. They were very proud. Every summer, on July 4th, the church hosted an ice cream social followed by mosquitoes and fireworks. Some of my students and I brought music appropriate to the holiday and provided a little organ concert while we waited for darkness and fireworks. In the middle of the night the church exploded, probably from a gas leak in the kitchen, and the little organ was lost. In this case, however, the church was able to replace the little organ with another tiny pipe organ and, a few years later, with a larger instrument suited to their needs.

Three churches, yet only one had enough insurance to replace their instrument following disaster. There are many other similar stories. Is your church prepared?

It's not enough to simply ask your church treasurer about insurance coverage. You need to provide some numbers. If your instrument is relatively new or from a builder still in operation, contact the builder and find out what it would cost to replace your instrument. If you wish to compute the value yourself, there is a fairly simple formula. Organs are often priced by the stop (not by rank), so you can count the number of speaking stops (an 8' Oboe that appears in the pedal as a 16' Fagott would count as a single speaking stop, although you do need to keep the extension to the pedal in mind since those are expensive pipes.) Then you multiply the number of stops by two values to get a range. I've been using \$15,000 at the low end and \$30,000 at the high, although some organs do cost more than this.

Let's say your organ has 17 stops on two manuals. The formula gives us a range of \$255,000 - \$510,000. Now you must determine if your organ falls more toward the "cheap" or the "expensive" end of the spectrum. If you have little or no casework and no large pipes, your organ will fall closer to the low end. If you have elaborate casework and a number of full-length 16' stops, you will be at the higher end. When in doubt, round up.

I recently assisted a church with this formula. Their casework consisted of some plain plywood panels below the exposed pipes that any woodworker could reproduce, and just

4 stops of 8' length. There was no swell box. We agreed it should fall at the lower end of the spectrum. Had the casework gone all the way around the pipes, with a couple of full-length 16' stops or a 32' in the pedal, the price would definitely have been at the middle or upper end.

When you present your "number" to your financial officer, make sure you check that you have *replacement* insurance. Without specifying that simple term, the insurance company might opt to deny a full claim and give you some fraction of full value, not enough money to actually replace a lost instrument. The insurance industry is in the business of NOT giving you any more money than that to which you are entitled.

As much as we like to avoid difficult topics such as church fires, we know that they do happen. A simple exercise of updating your insurance coverage every few years is just as important as having regular tuning, cleaning and maintenance. ♪

WILMA JENSEN IN CONCERT AT CATHEDRAL

by Lawrence Lanyer

The Music Series of the Cathedral of Saint Paul presents Wilma Jensen in recital on the historic Cathedral organs on Tuesday evening, **September 29 at 7:30 pm.**

With a long and distinguished career as a recitalist, teacher and conductor, Dr. Jensen remains in demand for her artistry, consistently receiving favorable reviews.

A huge talent in a modest and petite package, Wilma Jensen consistently impresses with the thoroughness of her preparation, the depth of her understanding, and the passion of her delivery. Whether as teacher, organist or conductor, she is the embodiment of music.

- Michael Barone, Host of *Pipedreams*

The recital is free and open to the public and a freewill offering will be received. The Cathedral of Saint Paul is handicap accessible and located at 229 Selby Ave., St. Paul. Free parking is available in the Selby Ave. lot. ♪

During the 1960s, an attempt was made to downplay the orchestral character of Mr. Skinner's Opus 634 and give it an unnatural 'Baroque' voice. After years of planning, and the retrieval of many ranks of pipes that had been 'de-accessioned', the Schantz Organ Company has reaffirmed the Rockefeller Chapel organ's original character, with additions. Jeffrey Dexter, Schantz tonal director, provides commentary.
